

Ambulance

(M/T Misa Ruzickova, translator Eliska Ruzickova)

Ambulances passing around the cars
Drove a boy who flew over his handlebars
Didn't wear a helmet and braked too fast
Had to be wrapped up in a white plaster cast
He went soaring down a hill with a boom
Now he's enjoying his hospital room
He's sharing with little Anabelle
They'll be friends as they are getting well

Ref:

Wee oo wee oo, blares with all its might,
shining, flashing, fast as lightning, fading out of sight,
Wee oo, wee oo, rushing to assist,
saving human lives is truly on top of its list

Driving out to pick up a skateboarder
Fell into a ditch, what a performer
Knocked out his teeth and bumped his tailbone
Now he's lying here with his forehead sewn
doctors will get his wounds nice and sealed
So, then his injury will be quickly healed
For now, his laugh has faded away
Crutches help him to get on with his day

Ref:

Calling nurses and doctors, all aboard
Our next trip is heading to the heliport
Near the city in the woods a blue car crashed
Went too quickly in a turn, now it's smashed
Drivers just as always went way too fast
Didn't give way and let others past
They got scratches all over their new mudguards
Luckily, they got away with tiny scars
